Vol. 8, No. 40

EDMONTON, ALBERTA, WEDNESDAY, OCT. 5, 1955

Section One—8 Pages

Lions Club To Hold Amateur Night

LAC LA BICHE — The Lac La Biche Lions Club held its regular bi-weekly meeting at the York Hotel. The meeting was in favor of moving the local skating rink. The proposed site is the market square across from the Dr. Swift School. It is a more central location and would give those interested a better chance to enjoy skating.

The club was in favor of sponsoring an amateur night later in the fall, preferably the first week in November. It was hoped that the schools of Lac La Biche would co-operate and assist in making the event possible.

A tentative date for charter night was also discussed. After the meeting members enjoyed a delicious chicken supper at the York.

Teachers Appointed

The teaching staff in the Plamondon School is as follows: Miss Helen Sullivan, grade 1; Mrs. Fernande Plamondon, grade 2; Sr. Solange, grade 3; Miss Anne Bolonsky, grade 4; Rev. A. Ricard, grade 5; Mrs. Eldege Gregoire, grade 6; Arthur Girard, grades 7 and 8; Sr. Christine, grades 9 and 10; Sr. Lelia, grades 11 and 12.

Grassland

In the list of names of those attending university from this district, the name of Willie Hula was inadvertently omitted.

Jack Thistlewaite of Toronto Ont., is visiting his aunt and uncle. Mr. and Mrs. George Fleming. It is his first visit in 21 years.

Mrs. W. Rybicki has returned from hospital at Lac la Biche.

Wilfred Johnson is building an addition to his house.

Mr. and Mrs. Philip Derdusseau's baby boy suffering from polio was rushed to hospital at Athabasca last week and was later transferred to an Edmonton hospital.

—Imperial Oil photo.

SIX WEEKLY newspapers were among a selection of Canadian publications placed in the cornerstone of Imperial Oil's new 19-storey office building in Toronto. Here G. L. Stewart (left), chairman of Imperial's board of directors, and J. R. White, company president, examine one of the weeklies before placing them in the copper box which was hermetically sealed and deposited in a special cavity in the three-ton cornerstone. Mr. Stewart laid the stone September 8, the 75th anniversary of the company's formation. The newspapers were part of a collection of Canadianiana intended to inform some future generation about Canadian living habits in 1955. Another item was a "microfilm scrapbook" of some 150 clippings from various Canadian newspapers. Weekly newspapers chosen to be preserved in the cornerstone were the 1954 winners of Canadian Weekly Newspaper Association awards as best weeklies in their divisions.

W.I. To Canvass For C.N.I.B.

LAC LA BICHE — The regular meeting of the W.I. was held Sept. 20 at the home of Mrs. J. Zaleczny with a good attendance. Mrs. S. Joutney was co-hostess.

Roll call was answered by each member with the name, age and other interesting facts about an Alberta town. At this time each member also gave her contribution for the Thanksgiving Food Hamper which is to be raffled at the Bake Sale to be held Oct. 8 at the Hudson Bay Co. store.

Arrangements for the CNIB canvass were made and the date set for Oct. 15.

The president thanked all the ladies, who had assisted at the 10th anniversary banquet held at the Dr. Swift School, Sept. 13. A special vote of thanks was extended to the gentlemen who had assisted with setting up and removal of tables, etc.

The library convenor reported that the books had been moved to the new location in the Town Hall and that with the re-opening of schools, there had been a great many renewals as well as new memberships taken out. Mrs. H. Linnel volunteered to join the library committee.

Mrs. M. Patterson will assist Mrs. Woyanowich on the hospital committee.

N. Myskiew, superintendent of schools in the Lac La Biche division, gave a very informative speech on the use and aims of the enterprise system in our schools today.

Atmore

Roland Poulin and Mike Petryk have resumed their studies at the University of Alberta.

Mr. and Mrs. Ira McKenzie were week-end guests at the home of Mr. and Mrs. Lloyd Dakin, prior to their departure to the west coast where the McKenzies will take up residence.

R. Matheson was a business visitor to Rocky Mountain House this past week.

N. Kostiuk and G. Brietzke spent Sunday at Rochester.

Miss G. Grenier who was employed during the summer months in Edmonton, returned home recently to help her parents.

But Baldwin of Edmonton is helping with the harvest operations on his father's farm.

Frains

Mr. and Mrs. John Pusharski's (the former Mrs. Knech) home was burned down last week. It was a total loss as no insurance was carried. No one was home at the time.

Mr. and Mrs. Harry Budney and family are enjoying the conveniences in their modern home.

W.A. Holds Whist Drive

LAC LA BICHE — The W.A. of Lac La Biche Anglican Church had a special meeting at the rectory on Sept. 26. The highlight of the meeting was the decision to hold a whist drive on Oct. 4 at the Dr. Swift School.

District Mink Ranchers Face Busy Season Selecting Stock and Pelting

LAC LA BICHE — Local mink ranchers, who see plenty of live (and dead) mink but not too often a mink cape or coat — are approaching the busiest season of the year. These mink ranchers are watching the mink coats being developed on their ranches. For autumn is the pelting season and at this time breeding stock has to be selected.

Selection takes an experienced and well trained eye. General coverage, length of fur, texture, density and color of both guard and underfur must be judged with skill before pelting is done.

Mr. Gillies suggests taking a number of the better mink on the ranch to a local field day or show. These mink can then be used as "pilot models" with which to compare the rest of the herd.

Other points as well as fur color and quality must be watched, says

Mr. Gillies. The study of pedigrees cannot be overlooked. Line bred or in-bred animals, which have desirable heredity traits for fur quality size and breeding vigor are more likely to transmit these traits to their offspring than animals of good appearance but inferior heredity.

Selection from uniformly good-sized, healthy and robust litters is advisable. Avoid the selection of poor eaters and those with nervous habits. Non-producers or those known to have destroyed their young should be eliminated from the ranch. Inactive males from the year before, should be replaced by young vigorous animals.

If close observation of the mink has been made at feeding time, any mink that have not shown the desired qualities during the summer months should be marked for the pelting board by now, and this will give the farmer additional time on the selection of those remaining.

When the final selection has been made on the mink farm, do not destroy all this effort by pelting before the mink are fully prime. More dollars are lost by pelting too early than are lost by pelting too late. All the mink will not reach their prime on the same calendar date—each animal must be killed when it reaches its prime state with respect to leather and fur color.

When leather appears creamish in color and the fur is set to the point where it does not pull out when tested, it should be safe to start pelting. As a general rule the mutant type mink will be later in priming than the Dark Standard.

The time spent now in rigid selection and culling will bring its just reward in herd improvement and dollars and cents.

Venice

Mr. and Mrs. George Seminiuk and daughter from Kamloops, B.C. were recent guests at the home of Mr. and Mrs. Pete Bezpolko.

Mrs. Biollo has returned home after being a patient in the Lac la Biche hospital.

Mrs. Tony Torresan has been a patient in the Lac la Biche hospital for over three weeks.

A surprise party was held in honor of Louis Macor and Angelo Giacobbo at the home of Mr. and Mrs. Angelo Giacobbo on Sept. 24.

Mary Giacobbo, Doreen Giacobbo and friend, Johanna Whulko, all from Edmonton, were here over the week-end to attend the party.

Frank Lafave made a recent business trip to Edmonton.

Caslan

Mr. and Mrs. D. Wolansky were in Edmonton for the funeral of the latter's mother, Mrs. Chepeha, who passed away at the age of 90 years.

Alex Gordon was a recent visitor to Edmonton.

Surveyors have been working on the road between Bondiss and Caslan.

Valerie Wolansky, daughter of Mr. and Mrs. D. Wolansky, was taken to Lac la Biche for medical attention.

Mr. and Mrs. V. Boucher and family are going on a holiday.

LOCAL HOTELMEN CONTRIBUTED TO ASSOCIATION SCHOLARSHIP AWARDS

This week's issue carries pictures of local Alberta students who have won scholarship awards presented by the Alberta Hotel Association. All these students (56 altogether) are now attending the University of Alberta, with scholarships as high as \$1,000 each.

J. H. Fairhurst, Edmonton manager of the Alberta Hotel Association; in discussing the scholarship program, pointed to the important part played by the local hotelmen. "Without the co-

operation and assistance of the local hotel, the association could not have given these young people the educational opportunities they are now enjoying at university," Mr. Fairhurst said.

The following are the district hotelmen who contributed to the success of the 1955 Scholarship program:

Andrew Firchuk, manager of the Lac La Biche Hotel; Wukkan O. Dorosh, manager of the York Hotel, La Cliche; Omer L. A. Poulin, manager of the Atmore Hotel.

Alberta Youths Get Cadet Scholarship

TORONTO—For the first time, a Navy League of Canada scholarship has been awarded a Sea Cadet who is a Negro.

He is Lemuel Boyd of Edmonton, who will attend the University of Alberta, the Navy League said in announcing award of seven more university naval training division scholarships.

Last year Lemuel won the President's Trophy, awarded annually to the Canadian Sea Cadet who has shown the most outstanding qualities of leadership.

Other winners of the scholarship include Robert Scarth and Robert O'Hara of Edmonton.

Valued at \$250 each, the scholarships cover first-year tuition fees at universities and colleges.

THE LIQUOR CONTROL ACT Application For Hotel Beer Licence

Public notice is hereby given that the undersigned intends to apply to The Alberta Liquor Control Board for a Licence to sell Beer by the glass or open bottle, for consumption on the licensed portion of the premises, and also to sell Beer by the unopened bottle for consumption elsewhere than on the licensed premises, in conformity with the provisions of The Liquor Control Act and the Regulations made thereunder, with respect to the following described premises:

Beer Salesroom on the east side of the ground floor of the York Hotel, situated on Lots 12 to 16, incl., in Block 11, Plan No. 4313 B.F., (H.B.R.), Lac la Biche, Alberta.

Dated at Lac la Biche, Alberta, this 28th day of September, 1955.

LAKE INVESTMENT CO. LTD.

Wm. Kerelluk, President.
P. Eskow, Secretary,
Applicant.

Any person wishing to protest against the issuance of a Beer Licence to the applicant should notify the Alberta Liquor Control Board, Edmonton, Alberta, in writing, within thirty days of the date shown at the foot of this advertisement.

New St. Catherine's Hospital To Open Thursday, October 6

The new half million dollar wing of the St. Catherine's hospital will be officially opened Thursday, Oct. 6 by Dr. J. J. Bowel, Lieutenant-governor of Alberta.

For many months the citizens of Lac la Biche and district have been anticipating the day when the hospital doors would be open to the public.

The opening ceremonies will be an all day event, with the most Rev. Philippe Lussier, Bishop of St. Paul, blessing the new building in the afternoon at 2 o'clock.

The citizens of Lac la Biche are invited to attend these opening ceremonies. Children will not be admitted, but a later date is being set for the school children when they too can view the interior of the fine new hospital.

Owl River

Mr. and Mrs. Frank Thompson had his brother and wife of Calgary visiting them over the week-end.

Mrs. Verschoor and daughter, Shirley, of Big Bay, visited Mr. and Mrs. L. T. Diesel recently.

Mrs. Shirley Mann of Big Bay is teaching her children through the correspondence method again this term, as the distance is too great for them to attend school.

S. Gladie is preparing to go south to work.

Peter and Emil Cardinal, also Emil Barque were visitors at Mrs. Mary Villetts recently.

The Beaver, first steamship on the Pacific coast, rounded Cape Horn and reached Port Vancouver in 1835.

Spruce Valley

Eddie Bator left the district on Tuesday for Vernon, B.C. Eddie has completed his high school education at the Grassland High School where he graduated in June, 1955. Eddie plans to take a business course at college in British Columbia. His parents plan to leave the district for the same sometime in the near future.

Brownie Zilinski, Theresa and Evelyn of Athabasca, were visitors on Sunday at his brother's, Mr. and Mrs. Nick Zilinski and family. Mrs. Caroline Zilinski, who spent two weeks at Mr. and Mrs. Brownie Zilinski came home for the day also. She went back to Athabasca with her son, Brownie.

Congratulations to Mr. and Mrs. Brownie Zilinski of Athabasca on the birth of a baby boy, Sept. 23. Mr. and Mrs. Brownie Zilinski resided here a few years back and are well-known in the district.

PROBLEMS OF WEEKLY NEWSPAPER OUTLINED ON CBC RADIO

When all the foregoing factors are considered it becomes obvious why the weekly newspaper enjoys a position that is unique among all means of communication. By the very nature of its function as the sole gatherer and disseminator of all local and rural news and events, it continues to be, in spite of the presence of many other media, the most dependable and effective vehicle for the advertiser who wishes to build a strong foundation of goodwill toward and acceptance of his product or service in the farm markets of Canada.

Hit and Run Suspect Surrenders

EDMONTON -- Arthur Dickey, who reported to police after reading newspaper reports that they were seeking an "unknown truck driver," reserved plea on a charge of leaving the scene of an accident and driving with his licence suspended.

Margaret Chisholm, 38, was unconscious in hospital as a result of injuries suffered when she was hit by a truck.

Elmer Killips told police he saw a truck stop and took its licence number after the driver got out to

On Sunday, Sept. 18, the CBC's Canadian Scene presentation was concerned with the problems faced by the editor's of Canada's weekly newspapers.

From the composing room to the rural mailbox there are a variety of problems to be faced each week. To give the listener an insight into some of them and to describe the work done on a weekly newspaper, Bill Herbert visited the Ladner Optimist and publisher Edgar Dunning.

Bill described how a weekly paper differs from a city daily and how it has come to be called the "Community Watchdog."

Dickey told police he read that they were seeking the driver and had the licence number of the truck.

EDMONTON — Dr. M. A. Rautf, India's High Commissioner to Canada who is on a tour of Western Canada, paid a courtesy call on Mayor William Hawrelak.

EDMONTON — Dr. M. A. Rautf, India's High Commissioner to Canada who is on a tour of Western Canada, paid a courtesy call on Mayor William Hawrelak.

You may know people who do not have a TV set, do not have a radio, or fail to listen to it regularly, do not subscribe to magazines — but do you know anyone who does not read a newspaper?

It is not suggested that the other mediums referred to are a minority in the field of communication. Far from it. Each performs a very important function, according to its particular field, be it entertainment or the dissemination of information. Radio has done much to brighten the lives of those who populate the remote and out-of-the-way places. Perhaps no other medium will ever replace it in its field. But in the areas of Canada which are served by printed media, it is the newspapers on which people must depend for the main source of their information — even to TV and radio program schedules.

When it comes to meeting the demands of the small town and rural populace the weekly newspaper is in a class by itself. No other medium, not even its big brother, the daily, can honestly claim to have the acceptance and readership enjoyed by a weekly newspaper in its own community. The *Toronto Daily Star* in an editorial, commented on the weekly newspaper as being "for the most part well edited and covering their field with a thoroughness which a metropolitan daily cannot hope to achieve."

Does the weekly newspaper hold the interest of the farmer? Does it have any special appeal for him?

Consider what are the important things in the life of a farmer and his family. The success of the farm upon which their livelihood depends; news of their neighbors and the day-to-day happenings in the district (usually over-the-back-fence chatter in the urban areas, but back fences are far apart in the country).

—What the county council is doing.

—who was present at the church social.

—What bargains are being offered in town this week.

—Has the local member of parliament anything to say to his constituents.

These are the things that largely concern the farmer. Sure he's interested in national and international affairs, but these matters are not nearly as much immediate concern.

How well does the weekly newspaper serve the needs of the farm family? Take up almost any weekly newspaper, any issue, and you'll find the evidence.

Farm news and information. The average weekly consistently carries such material — and it is of local importance. Local agricultural representatives contribute timely articles on matters having a direct connection with local agriculture. Potato blight and fruit growing problems in the maritimes, rust and weed control on the prairies and so on.

News of the community. The countless items of "gossip" that appear in the country weekly may be a source of amusement to the big city dweller, who wonders why the publisher wastes so much space on the stuff. But does he ever consider that much of the conversation which takes place in his home is of the same nature? The wife heard it from the neighbor next door, who heard from someone else down the street. Farm folks, with wide distances separating families, don't hear the news of Mrs. Jones' illness over the back fence. They

read about it in the local weekly, and they'd feel pretty disappointed if it wasn't in print — as would Mrs. Jones herself.

Then there's the advertising, such as banks, farm machinery people, automotive and related industries. Many national advertisers realize the value of consistently using the local weekly to not only reach the prospective customers, but to achieve a degree of *local identity* which is *unattainable by any other means*.

From the farmer's angle, he reads in the ads the news of auction sales, stock sales, equipment available. He reads these ads as one who in all probability knows the advertiser personally, and he likes doing business with the people he knows and whose name he can find in the local paper. It is the *local touch* that tells in weekly newspaper advertising.

"WHAT'S GOING ON IN TOWN"?

Can you picture what life in your town would be like without a weekly newspaper?

You'd have nothing to keep you up to date on happenings right in your own neighbourhood. If you had something to sell, you'd have to go out and look for a buyer. If you needed to buy something, you'd have to look all over town for it.

Your neighbours could marry, have children, or even die, without you hearing about it until much later.

Council could pass a by-law affecting you and you might never hear of it.

Plans for worthwhile community projects might never get started for lack of news and support.

Fortunately, your town *has* a weekly newspaper, a source of local information that no other kind of publication can replace.

Over the years, Canadian weekly editors have lent their support unstintingly to many a good community cause. This year, for the first time, they are celebrating National Weekly Newspaper Week, and Imperial Oil is glad to participate in paying tribute to your weekly newspaper.

NATIONAL WEEKLY NEWSPAPER
WEEK - OCTOBER 1ST TO 8TH

IMPERIAL OIL LIMITED

Research Pilot Plants Refinery Within Refinery

While Imperial Oil crews at Sarnia are busy refining petroleum at the rate of 78,000 barrels a day, a relatively small group of men operate a little "refinery-within-the-refinery" that turns out products which are sometimes years ahead of their time.

These men are members of the Research Department, whose, "little refinery" is actually a widely scattered collection of pilot units which carry on many of the refining processes on a miniature scale.

The pilot plants lack the "assembly line" principle that links one process to the next, but collectively they are capable of doing almost every refining job carried out in the big plant. And sometimes they do a job even better; for one of the main purposes of the miniature equipment is to test and help develop new processes and products after they have proved promising in the laboratory.

Some of the pilot units, unlike their full-size counterparts which tower several stories high, are small enough to fit into an average-sized clothes closet. Others, like the cracking pilot unit, which can be used in a variety of ways, occupy space roughly equivalent to that of a small bungalow. Most of these units are located in one section or another of the research department's sprawling laboratories, but some, such as the wax recrystallization unit.

With their pilot distillation unit, the research men can break crude oil into the "fractions" which are the bases for products ranging from asphalt (on the "heavy" end of the petroleum scale) to gasolines and gases (on the "light" end). In the next step, they can use their miniature cat cracker to make gasolines out of some of the medium fractions. And other pilot units can be used for other steps in refining, including the treating, finishing and blending of such products as lubricating oils.

The lube oil that is produced in a pilot plant this week may prove to be the improved new motor oil that first goes on the market in six months, a year or even later. However, the tests conducted with the pilot units are only an intermediate step in development. Products resulting from such experiments must later pass such rigid tests in the lab, and finally, actual field tests, before being incorporated into the operations of the "parent" refinery.

Meteorite Battle Finally Settled

TALLAGEDA, Ala. — The long legal battle over ownership of a meteorite which struck a woman near Sylacauga, Ala., last Nov. 30 has been settled out of court.

Mrs. Elizabeth Hodges, 31, who was hit by the falling star fragment gets possession of the nine pound meteorite and Mrs. Birdie Guy, who owned the house in which Mrs. Hodges was living at the time, gets \$500 of the purchase. Mrs. Hodges said she had been offered up to \$5,500 for it.

New Mountain Highway

BANFF (BUP) — The highway between Banff, Lake Louise and Jasper is one of the various highway projects which are now under construction.

Past Lake Louise Station, some seven miles from Herbert Lake, the new highway is being widened to a width of 66 feet and work is being carried on from the Lake almost to Peyto Lake.

About 25 miles of the road is completed from Jasper. It is estimated it will take five years to finish the entire Lake Louise-Jasper Highway.

Work has been started at the junction of the Mount Norquay and Banff-Lake Louise Road and is proceeding at a fast pace.

The road, which is a four-lane highway, is being constructed on the north side of the river and proceeds three or four miles before it crosses the river to continue on the south side of the Bow River to Lake Louise. The present five-mile hill will be eliminated but there will be a curve down to the new bridge which will span the river and the road will then level out as it proceeds west.

at a banquet ending the annual competition.

Water Lee, who finished sixth this year, took the cup to Lacombe in 1954.

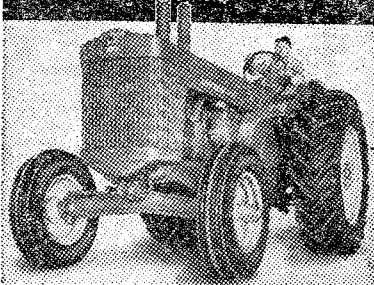

The rodeo was sponsored by the provincial highways department. There were 16 drivers, including two women and four teenagers, all winners of regional competitions.

Norman Giles of Camrose, who won the Edmonton Rodeo, won the \$250 scholarship presented to the teenager who registers the highest score in the regional events. He finished 11th with a score of 247, but scored a record-breaking 395 in the Edmonton event.

Harriet Gustafson of Jasper Place, who was tied with Midge Oxtoby of Innisfail for the women's trophy after the regional events, polled a score of 296 compared to Mrs. Oxtoby's 257 to win the Alberta Safety Council trophy given to the top women drivers.

No one ever got away from hypocrites by staying out of church.

Calgary's Conscience Cleared

EDMONTON — Jack Baker, president of the Edmonton Junior Chamber of Commerce, got a free ride down Edmonton's main street recently. The ride may not have

been too comfortable as the vehicle was a wheel-barrow.

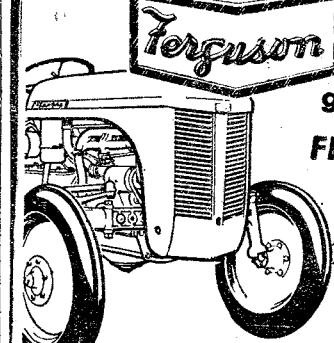

Pushing the wheel-barrow along Jasper Avenue was Bill Henderson, president of the Calgary Jaycees.

The free ride was the pay-off on an election bet. The Edmonton

Jaycees bet the Calgary Jaycees that Edmonton would turn out a heavier vote in the June 29 provincial election than Calgary.

Calgary had 60 per cent of the voters go to the polls, Edmonton 65 per cent.

NEW REFINERY MANAGER FROM B.C. FOR IMPERIAL OIL; MOOR TO EAST

EDMONTON—E. K. Lewis, superintendent of Imperial Oils loco refinery near Vancouver since 1952, will take over as head of the company's Edmonton refinery October 1, it was announced today.

He will succeed H. H. Moor, who has been in charge of the Edmonton plant since its erection in 1947. Mr. Moor has been appointed head of the company's Imperial refinery at Halifax, which is now undergoing a \$25,000,000 to \$30,000,000 expansion program. The new appointments are part of an overall company plan to broaden management experience.

The heads of Imperial refineries will henceforth be designated managers. Mr. Lewis will thus be manager of Edmonton refinery, and Mr. Moor manager of Imperial.

Mr. Lewis, who graduated from Nova Scotia Technical College in 1930, joined Imperial in 1933 and became a process foreman at Imperial in 1936.

In 1942 he was appointed foreman of the refinery at Halifax, but a few months later was loaned to the I. Clair Processing Corporation for wartime service on synthetic rubber production.

Returning to Imperial in 1946, he attended an advanced management course at Harvard School of Business Administration and subsequently held various positions in the company's manufacturing department. He became superintendent of the company's Montreal East refinery in 1948 and superintendent of Winnipeg refinery in 1950, when the latter was still under construction. He moved from Winnipeg to loco two years later.

Mr. Moor, whose career in oil dates back to 1923, has had wide experience in his field. He became a specialist in the production of

lubricating oils soon after joining the company, and worked various research projects at Sarnia. He has worked continuously for Imperial since 1923 except for a period in the mid 1930's when he was on loan to a French company as an adviser on the construction and operation of a lubricating plant at Port Jerome, France. Mr. Moor was one of the key men in the erection of the Edmonton refinery, which Imperial dismantled and brought down the Alaska highway from Whitehorse, Yukon Territory, in one of the most unusual engineering feats ever carried out by an industrial concern.

been awarded for work on the Belmont Rehabilitation Centre north-east of Edmonton.

Honorable James Hartley, Minister of Public Works, also announced the awarding of a \$19,141.00 contract for the installation of an intercommunication system for the Provincial School for the Deaf at Edmonton.

Other bids on the water system were: Christensen and MacDonald Limited, \$37,137.00 and Berger Brothers Limited, \$39,520.00. Two other bids were rejected because they did not comply with the specifications.

Cable Brothers Limited tendered a low bid of \$19,141.00 to receive the contract for the work at the School for the Deaf.

Edmonton Men Jailed In Forgery

TRAIL, B.C. — Three Edmonton men were given prison sentences Tuesday when found guilty on charges of possessing stolen goods and uttering forged documents.

Jack R. Teneff, termed by police the leader of the gang, and Harold Courtney were sentenced to a year each in jail, and Mike Malynachuck to three months. Leslie Lee had a charge dismissed because of lack of evidence.

The men were arrested in Trail after merchants had become sus-

picious of cheques issued in the name of the Swanson Lumber Co. of Edmonton.

When arrested the men were in possession of cheques made out in the lumber company's name to the value of \$5,000.

IMPERIAL OIL MANAGER EXPECTS MILLIONS MORE IN OIL PRODUCTION

EDMONTON (BUP) — Canada will have an ultimate oil production rate of "several million barrels daily", an official of Imperial Oil of Canada Limited predicted in stating that the Western Canadian Basin is one of North America's few remaining prospects for large discoveries.

H. W. Stoneman, assistant manager of Imperial's Edmonton Producing Division, made the forecast in an address before the 12th Annual Convention of the Canadian Association of Real Estate Boards, held this year, in Edmonton for the first time.

The official said that during the next five years alone, more than a billion dollars is expected to be spent on development of probably new discoveries and on exploration for future Canadian oil reserves.

"Based on the exploration experience in the United States, Canada should develop from 20 to 25 billion barrels of light crude oil by the end of this century," Stoneman told the 600 delegates. "This is sufficient to let us forecast an ultimate producing rate of several million barrels daily and the lasting development of petroleum energy on a large scale."

Stoneman emphasized the vastness of promising areas yet to be explored for oil in Canada.

Despite marketing problems, however, the demands on the west coast, the prairies and the Ontario area, coupled with an increase in crude oil exports, will, according to Stoneman, increase the total outlet for light and medium gravity Canadian crude oils from today's 350 thousand B-D to more than 570 thousand B-D by 1960, an increase of 70 per cent.

Uncertainty of the export market in the United States, related of course, to possible crude oil import restrictions and other aspects of

trade policy was termed the only problem in achieving the expected increased production of Canadian crude.

In any event, the oil industry has big plans for the next five years. Stoneman predicted that over a billion dollars will be required to meet the growing market over this period.

A large part of this sum will be spent, he said, on developing expected new discoveries and on exploring for future oil reserves.

Conditions in Canada are believed certain to attract the continuing interest of major companies looking for oil on a long term basis.

Egg Lake

On Sept. 24, Mr. and Mrs. H. M. Olson gave a party for their friends, before leaving the district. There were about 30 persons present. Whist was played and beautiful presents were given.

Robert Lemay won the first prize, a billfold; Mrs. Robert Lemay won the first prize for the ladies, a pyrex dish. The booby prize was won by Leo Bourassa, and Mrs. Joseph Girard won the booby prize for the ladies.

Four Plamondon boys supplied the musical entertainment. Dancing was enjoyed and a delicious lunch was served. Residents wish this family every success in the future.

Lebeuf is in hospital with an injured hand.

Mrs. Denis Amiot spent a week in Gourin, at her former home, while her mother, Mrs. Joseph Dakin, was in hospital in Edmonton for an operation.

Mrs. George Burlack of Grassland left her two children with Mrs. Edmond Pare for a couple of weeks, while she was in hospital.

Varsity Students Live It Up

EDMONTON — Nearly 1,500 students from the University of Alberta whooped it up recently as guests of the city at a monster party at the Edmonton Gardens.

Jitterbugs, square dances, fox-trots and waltzes replaced the traditional Friday night snake dance, an annual event which marked the opening of the new term at the university — and which for the last several years caused monstrous downtown traffic jams.

This year, following complaints from motorists and others about the snake dance — a long weaving line of students wandering through city streets — the city provided an alternative, a party which may be offered annually.

Policeman Slapping Nets \$50 Fine

EDMONTON — A fine of \$50 was handed James Hustings by Magistrate McCulla in Edmonton police court for assaulting a policeman.

Hustings, attempting to detain a woman from boarding a bus, was approached by constable Buton and told to behave himself.

The accused struck the officer in the mouth with his fist and ran into a nearby hotel. He was arrested by two other constables.

Plamondon

Spring is usually moving time, but many have changed residences here recently. Mr. and Mrs. William Beaudet have moved into Mr. Beaudet's former home, Mr. and Mrs. Eldege Gregoire have moved into Philip Plamondon's house by the store, Mr. and Mrs. Bert Plamondon have moved into Philip Plamondon Sr.'s house, Mr. and Mrs. Wilbert Belanger have purchased Mr. and Mrs. Plamondon's house, and Mr. and Mrs. Paul Belanger have moved to St. Albert.

Gabrielle Ladouceur has gone to

the sanatorium in Calgary.

Mr. and Mrs. Charles Johnson were hospitalized in Lac la Biche for a few weeks, but have returned home.

Mrs. Albert Desjarlais of Wandering River was visiting her mother, Mrs. Julia Ferriere.

The J. C. Whalen Construction Co. has discontinued road work in the district due to the rain and has gone to Lac la Biche.
